Gene Maddox has done it again.

He voted against keeping our families safe by voting to put septic tanks near public waterways.

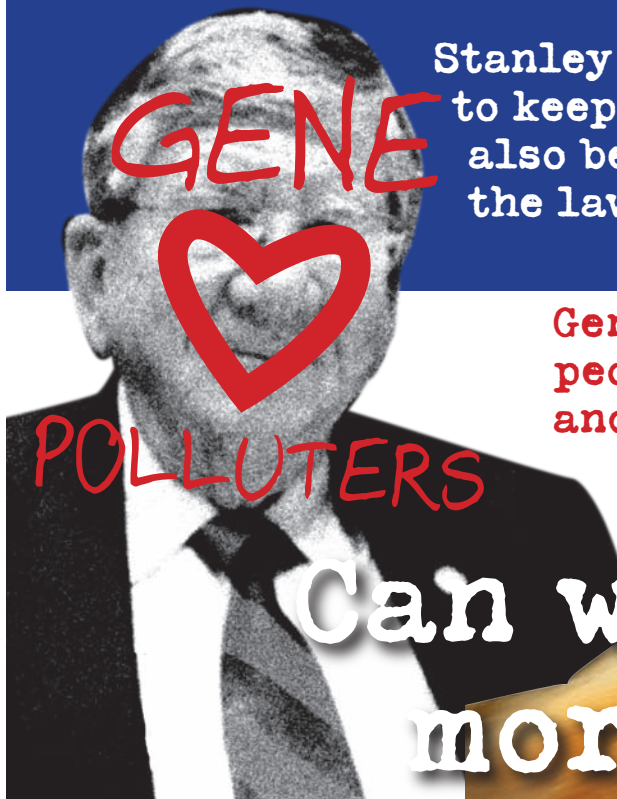

Poop near the source of our drinking water.

If that weren't enough, he also voted to allow polluters to keep polluting when they are caught violating the law.

Stanley Mobley believes that we need to keep our land and water safe. He also believes that when you violate the law, you should pay the price.

That's like letting a drug dealer keep dealing while his court case is being heard.

Gene Maddox: Letting people poop in our water and letting polluters keep on polluting.

Can we really afford any more of Gene Maddox?
