* Residual funds will be allocated in a second phase later in 2009. GDOT has discretion over a total of approximately \$624 million of C240 funds and \$28 million of C220 funds which it may dedicate to projects anywhere in the state. The GDOT Board has set goals for how these funds will be divided by project type, but no decision has been reached on a geographic distribution. It is not known how much ARRA transportation money will ultimately be spent in the Atlanta MPO area.
